Professional Experience

SAP Enable Now Instructional Consultant – Clamshell Private Limited, Bangalore

Jul 2024 – Present

- Designed and deployed **SAP Enable Now modules** integrated with AI-driven workflows for enterprise learning.
- Developed **simulations, guided tours, context help, and interactive eLearning content** to enhance SAP user adoption.
- Managed content workflows: **upload → preprocessing → SME Q&A → content analysis → gap reporting → approval**.
- Ensured **SCORM compliance and LMS integration**, monitored analytics, and iterated content based on user feedback.
- Partnered with SMEs and process owners to capture accurate business process steps and validate training content.
- Provided change management support and coaching for end-users on SAP Enable Now usage.

SAP Enable Now Consultant – Freelance Project

Jul 2022 – Jun 2024

- Designed and developed SAP Enable Now **eLearning modules, guided tours, simulations, and context help** for SAP S/4HANA users.
- Conducted training needs analysis and mapped learning paths to processes and user roles.
- Ensured **SCORM compliance and LMS integration** for enterprise SAP modules.
- Collaborated with SMEs to validate content, translating complex SAP steps into intuitive learning experiences.
- Deployed content via Enable Now Manager, managing versioning, roles, and permissions.
- Monitored usage analytics and iterated content for improved learning outcomes and adoption.

Projects

Secure Optical Communication Using QKD & TDSPE (OptiSystem)

Mar 2024 – Jun 2024

- Simulated BB84 Decoy protocol for quantum key distribution to strengthen data security.
- Designed and tested encryption-decryption workflows for secure optical communication.

SPR Sensor Design & Simulation (OptiSystem)

Jan 2024 – Mar 2024

- Simulated multilayer SPR sensor to detect chemical concentrations via resonance wavelength shifts.
- Optimized sensor sensitivity and validated performance for real-time chemical detection.

Bank Management System – Java, MySQL

Jan 2025 – Apr 2025

- Developed banking system with authentication, deposits, withdrawals, and real-time balance queries.
- Integrated Java and MySQL for transactional workflows.

Online Bus Ticket Booking System – Java, MySQL

Sept 2024 – Dec 2024

- Built booking, cancellation, scheduling, and admin dashboard workflows.
- Implemented automated reports and data validation.

Certifications

- SAP Enable Now – Content Developer Producer
- Udemy Full-Stack Development Course (Ongoing) — HTML, CSS, JavaScript, React.js, Node.js, Express, MySQL, MongoDB
